

FCplus app and FCplus web application (Logbook)

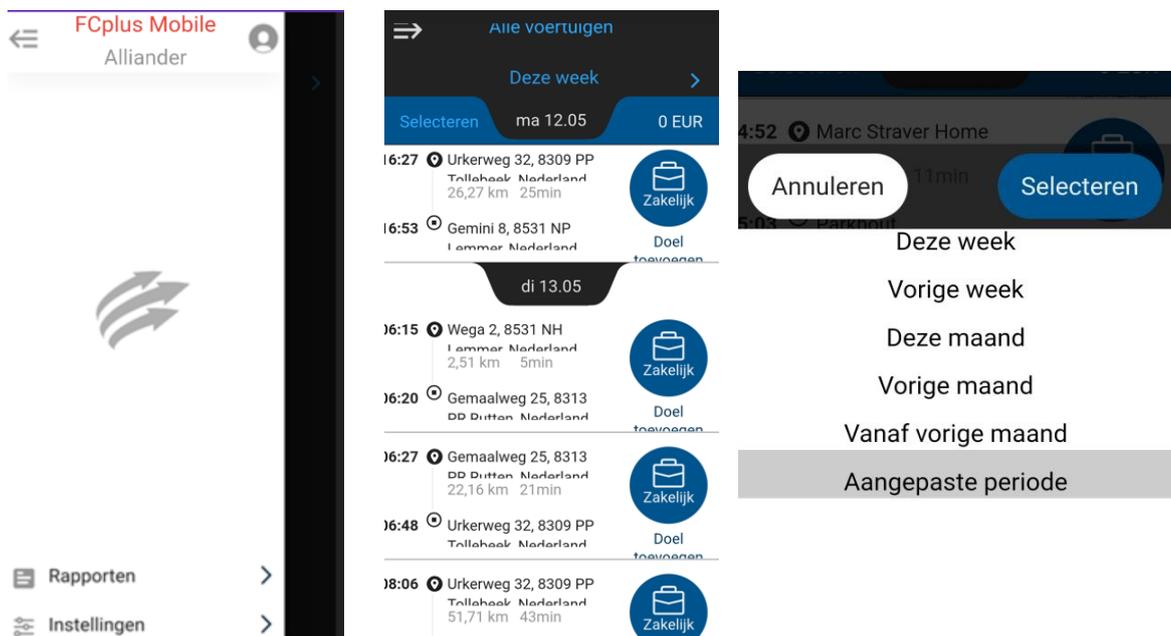

FCplus mobile app

In the FCplus App you can easily view your own trips and, if necessary, edit them (add a note). You can log in to the app with your own Alliander login credentials (SSO).

You will only see trips for the vehicles you have registered with your Alliander pass!

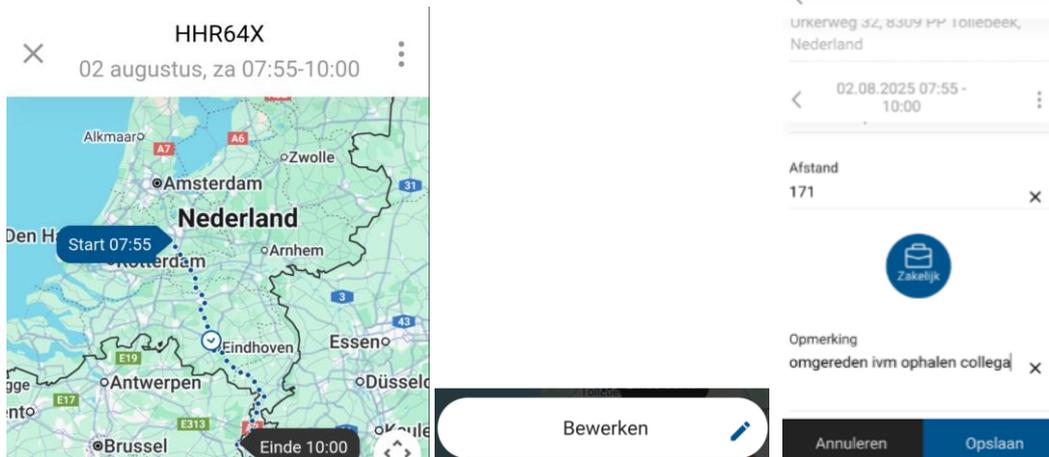

Below you see examples of the various screens you can navigate through:

You can navigate to the different sections by clicking on the icons  

By clicking on "Custom period" you can select trips over other periods than the default showed in the app (default is "This week").

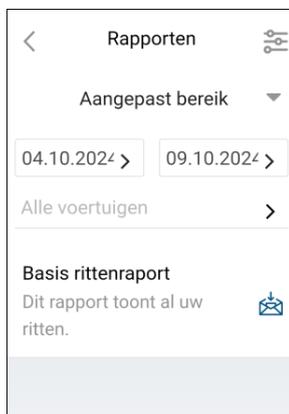

It is possible to add a Comment to your Business trip. You do this by clicking on the trip you selected; it will be displayed with a map. Next, click on the icon (top right), then select *Edit*. Click on this and enter the text you like under *Comment*, then click *Save*.

If you wish to generate a report of your own trips, click on the icon at the bottom of the main screen.

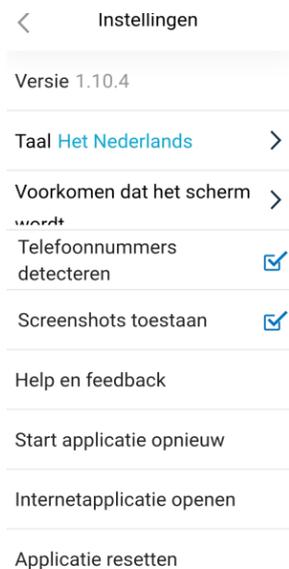

There you can indicate the period you like for the report, then click on *Basic trip report*, select the format (PDF or Excel), after which the report will be sent to your own email address.

By clicking on the icon  (top right of your home page), you can log out (normally not necessary).

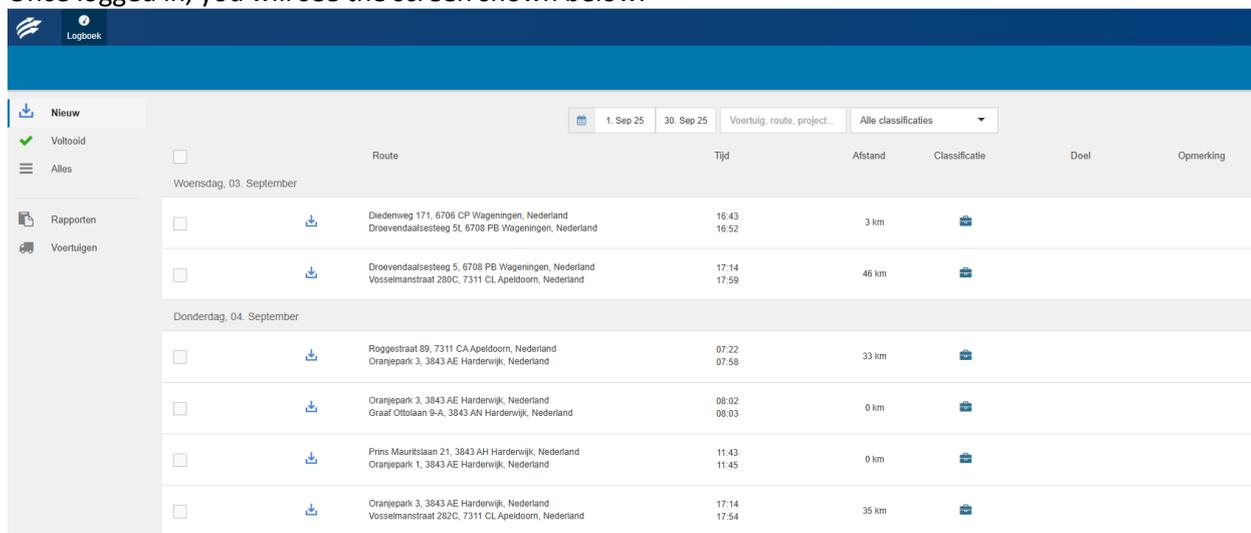

When you click under *Reports* in the main screen on the icon  *Instellingen* you can, for example, open the FCplus web application directly on your tablet or phone (*Open internet application*).

FCplus web application (Logbook)

When you use the Logbook web application, you also log in with your Alliander SSO account.

Once logged in, you will see the screen shown below.

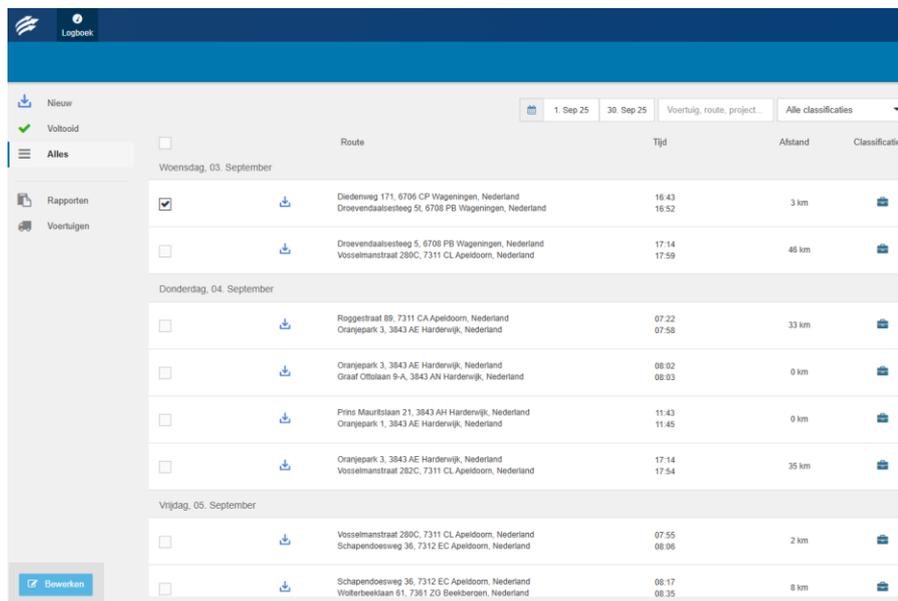

The screenshot shows the FCplus Logbook web application interface. At the top, there is a navigation bar with the 'Logboek' logo. Below the navigation bar, there is a sidebar with options: 'Nieuw', 'Voltooid', 'Alles', 'Rapporten', and 'Voertuigen'. The main content area displays a table of trips for the dates 'Woensdag, 03. September' and 'Donderdag, 04. September'. The table has columns for 'Route', 'Tijd', 'Afstand', 'Classificatie', 'Doel', and 'Opmerking'. Each row represents a trip with a checkbox on the left and an 'Edit' button (represented by a document icon) on the right.
